We Polish, Repair & Seal all Stone Surfaces

## Stone Deep Clean Product Information

Stone Deep Clean is a powerful, heavy-duty cleaner and degreaser recommended by The Marble Man to clean stone surfaces that have been neglected or subjected to heavy use such as shower tiles and glass and inside floor tile cleaning.

### Key Features

Non-acidic detergent; biodegradable; removes in-ground dirt, grease and soap scum from stone tiles and glass in showers, and in-ground dirt in high traffic areas on stone tiles and grout; will strip wax and other floor surface coatings.

### Surfaces

Polished and unpolished natural stone shower and bathroom tiles and glass, and floors made from granite, limestone, marble, sandstone, slate and travertine; engineered stone tiles such as Caesarstone, Essastone, Quantum Quartz, Silestone, Smartstone and Hanstone; porcelain, ceramic, terracotta tiles; cement pavers; masonry; grout; linoleum.

### Tips

- Always test a small, inconspicuous area first to determine suitability
- Use in showers at least once per week to prevent the build up of soap scum
- Use the recommended white nylon Scrub A Dub pad only for tough stains
- **DO NOT USE GREEN SCOURERS AS THESE WILL SCRATCH STONE AND GLASS**

### Application

Read entire label before use and shake bottle well. Use chemical-resistant gloves when handling product.

### Showers

- Step 1** Mix 1 part Stone Deep Clean to 1 part water in a spray bottle
- Step 2** Wet shower walls floor with clean water
- Step 3** Spray the mixed Stone Deep Clean on one wall at a time so the solution does not dry out (approximately 9 sprays per wall)
- Step 4** Use the white nylon Scrub A Dub pad to spread the cleaner evenly over the walls and floor
- Step 5** Starting from the top and working your way down, scrub the wall using circular motions and concentrate on the lower section which is subject to the most build up of products
- Step 6** Rinse the scrubbed walls thoroughly with clean water to reveal a fresh, sparkling shower

### Floors

- Step 1** Mix 1 part Stone Deep Clean to 5 parts water in a bucket of clean water
- Step 2** Mop the area with the solution
- Step 3** Use a scrubbing broom or a white nylon Scrub A Dub pad to remove tough stains
- Step 4** Soak up excess product with a towel or mop
- Step 5** Rinse the scrubbed floor with clean water and buff dry with a towel or dry mop
