Living With TuffSkin

Etch proof marble, limestone, travertine or onyx benchtops and tables

The Product

1. **TuffSkin** surfaces are designed to maintain the usability and beauty of your chosen natural stone surfaces.
2. **TuffSkin** will protect your stone from all chemical, acid and alkaline etching. For example, fruit juices, wine, vinegar etc. for as long as the **TuffSkin** remains on the surfaces.
3. **TuffSkin** gloss material may reflect some iridescence on the surface in fluorescent light.

Warranty Covers

1. **TuffSkin** 2 year domestic / 1 year commercial manufacture warranty covers you for any yellowing, blistering, bubbling or delamination from the protected surfaces.

Warranty Does Not Cover

1. **TuffSkin** warranty does not cover abrasion, cutting, scratching or burn marks whether intentional or unintentional.

Caring for Your TuffSkin

1. **TuffSkin** needs to be maintained. This is achieved by using Rejuvenata diluted in a spray. Applied by spraying, then wiping with a microfiber mitt or cloth.
2. It is essential that **TuffSkin** is protected by the use of a cutting board on the benchtop surface. For example, when the scraping a baking dishes or metal-based pan – ensure you place the pan / pot / bowl on a cutting board or wooden board to protect your marble benchtop and **TuffSkin** coating. All cutting involved in food preparation must be carried out on a cutting board never directly on the benchtop.
3. **TuffSkin** can be repaired in sections should the need arise and can be removed and replaced.
4. Do not use abrasive cleaning solutions – such as Gumption or Jif or scrub with steel wool or scrape with any kitchen utensils or sharp surfaces.

**100% protection from acid etching on natural stone when
TuffSkin is applied by The Marble Man**
