We Polish, Repair & Seal all Stone Surfaces

Living with TuffSkin

Etch proof your marble, limestone, travertine and onyx benchtops, bar tops, vanities and tables

The Product

1. **TuffSkin** protection is designed to maintain the usability and beauty of your chosen natural stone surfaces.
2. **TuffSkin** material is acid, alkaline, water and oil proof and will protect your stone from etching and staining caused by wine, lemon juice, vinegar, coffee, tea, oils, food, toiletries and make up, for as long as the **TuffSkin** remains on the surface.
3. **TuffSkin** gloss film may in some cases slightly reflect iridescence on the surface in fluorescent light.

Warranty Covers

1. This warranty specifically covers the product against yellowing, blistering or bubbling on the protected surface.
2. **Internally** life expectancy is 5-10 years depending on use and care, with 5 years manufacturer's warranty from installation date for domestic applications and 2 years for commercial applications.
3. **Warranty is non-transferable** and covers the original purchaser only with a proof of installation receipt.

Warranty Does Not Cover

1. **TuffSkin** warranty does not cover intentional or unintentional scratching, cutting, peeling, abrasion, delamination or burn marks on the protected surface.

TuffSkin Product Care

1. For best results use a stone cleaner such as **Stain Proof Daily Cleaner** available through The Marble man, and a soft cloth. Use a micro-fibre towel to dry the surface.
2. Do not use abrasive cleaning solutions such as Gumption or Jif or scrub with steel wool / pads or scrape with any kitchen utensils or sharp surface objects.
3. It is essential to use a cutting board for food preparation to protect the **TuffSkin** and the benchtop, for example when cleaning a baking dish or metal-based pan ensure you place the pan / pot / baking tray on a cutting board or wooden board and do not drag it along the surface.
4. Do not attempt to peel the product away from the stone. **TuffSkin** is made to be replaceable in case of damage however this must be carried out by a professional. Although it is possible to peel it back with a knife or fingernail, intentional damage is not covered under the warranty.

TuffSkin
SURFACE PROTECTION

**100% protection from acid etching on natural stone surfaces
when TuffSkin is applied by The Marble Man**
